Feedback Action Taken Report, Academic Session 2017-18/19

As per the Students' Feedback Analysis Report for the Academic Session 2017-18/19, a meeting was held in the Department of Education, Bodoland University on 07/12/2017 to discuss, suggest and take necessary actions on Students' Feedback Report. As per the report, it was observed that, the overall score on Syllabus Completion was Excellent and other parameters were also Very Good.

Resolution Taken:

The following resolutions were taken in the meeting:

1. The department shall give more guidance to the students with regard to their studies.
2. The Department shall give more Reference Materials to the students.

Members Present:

1. Dr. Manjit Das, HoD i/c

Feedback Action Taken Report of 1st Semester, Academic Session-2020-2021

As per the 1st Semester Students' Feedback Analysis Report for the Academic Session 2020-2021, a meeting was held in the Department of Education, Bodoland University on 03/09/2021 to suggest and take necessary actions on Students' Feedback Report. As per the report, it was observed that, the overall score on different parameters were good. Still further improvement can be made on some of the parameters mentioned.

Resolution Taken:

The following resolutions were taken in the meeting:

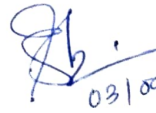

1. The Department shall give more emphasis on Teaching-Learning Process in the future.
2. The Department shall organise the Course Content properly and systematically.

As per the feedback received, we the faculty members of the dept of Economics, Bidoland University has on 6th September 2021 to address the issues reflected in the feedback report. Totted down below are a few points to address them conveniently —

1. Tutorial classes have been done to address the issues of analytical and problems solving skills.
2. Since there was a Covid-19 period there was no enough classes to cover up all the contents on time. There was lack of communicating tools or online learning materials and provisions to assess if too.
3. Now since it covid-19 period it was difficult for teachers to attend university classes. Moreover we are less equipped with the modern equipments for online classes.
4. Since we have a huge number of students it becomes difficult or impossible to hold the seminars and quizzes in a short span of semester classes. So it has been skipped. However assignments were given and presentations were taken for dissertation papers of 4th sem students.

Members :-

3. Ringchen Basumaty Dity

4.

5. Sijusa Basumaty. 6/9/21

Date: 15/5/22

As per the feedback received we have taken some important measures to mitigate the shortcoming of the Dept of Economics on 13th May 2022. Below mentioned points reflects our actions taken against the shortcomings of the Dept.

1. Again due to the covid-19 period classes could not be held normally and so the syllabus could not be completed in time.
2. We accept that we do not have all the modern equipments for better learning experience, but efforts and suggestions have been made to higher authorities to resolve this issue.
3. Annual assessments were done on our part on time but the results were could not be declared by the university in time. So we do not have much to say on it.
4. As said earlier due to large number of students intake it is impossible to hold seminars separately within the semester classes. Instead we resorted to home assignments for it.

5. To the best of our knowledge, we have never put any question which is beyond the syllabus. Indeed some analytical skills questions have been made to improve their π and problem solving skills.

5. S. Basu, Basu Roy. P. 13/8/22

Date: 12/08/22

As per the feedback report received, on 12th August 2022 we have resolved to address the issues addressed by them. Given below are the main points for addressing it

1. We have been constantly trying to enhance and enable our pupils for the development and analytical skills. Now it is on their part to absorb them as per their ability and capacity. Despite that we have made ourselves better equipped to improve them too,
2. we believe nothing has been more to cover up all the contents which are deemed fit for the students, though a few maybe skipped at times as per need needs and demands.
3. We believe we aren't that bad enough in having knowledge and understanding of our specialized papers. Though we constantly try to learn and improve ourselves every single day.

4. We accept we do lack, rather our dept lacks in required modern learning equipments. But efforts are on to make this provision highly available.

5. We refrain to accept this that we are not available in the dept. Records could be produced to prove it wrong.

6. Due to huge number of members we staff could not address this issue of seminars for students. But as mentioned earlier, home assignments and presentations are done whenever necessary.

7. Teachers are never biased in evaluation process. We believe there is mistake somewhere in their understanding of it.

8. A few analytical skills and problem solving questions must have been in the question papers. So it is actually a part of the life learning experience.
