MESSAGE

Educational needs of the society, state, country and the world are fast changing to revolutionize the social, economic, industrial, agricultural and geo-political settings to the benefits of mankind without discrimination by caste, creed, gender and equity and for sustaining the eco-system. Towards this endeavor, Bodoland University over the years is engaged in harnessing social orientation, sense of individual and social responsibilities, rights and responsibilities of citizen, literary and scientific innovation imparting quality higher education.

Four semesters Master Programmes in Assamese, Bodo, Botany, Biotechnology, Chemistry, Commerce, Computer Science, Economics, Education, English, Geography, History, Philosophy, Physics, Political Science, Management Studies and Zoology are designed not only to enhance the basics of the disciplines but also to inculcate innovative value-based minds to take up professional challenges, for further research engagements and for serving the society under compelling circumstances. Flexibility in the choice of elective and other courses across disciplines is in tune with the liberal education envisaged in National Education Policy 2020. Multi-prongs pedagogy including class room teaching, field and laboratory experiments, presentations, two directional interactions, class room questions and answers, assignments, scientific report writings, online and library based literature search are adopted to bring out the best out of the students. Library automation enables students for self-issue and return of books and is kept open till 9 pm during examinations.

The university girls' and boys' hostels in the campus provide housing facilities to students from distant places. The welfare of the students is looked after by Hostel Wardens under the supervision of Director of Students Welfare. The hostels are provided with reading rooms, computer and internet facilities. Solar panel and generators are also in placed as standby for uninterrupted power supply. Medical Unit of the university with doctors, nurses, pharmacists and laboratory

technicians take care the health of students. An ambulance is in stand 24 x 7 for emergency reference to civil and district hospitals in case of need.

It is time for all students who have completed graduation or appeared for last semester undergraduate examination and their parents to realize the dreams for higher education by seeking admission in Bodoland University in a post graduate course of their liking.

Looking forward to nurture your career and life through quality higher education.

Best wishes to all.

ABOUT THE UNIVERSITY

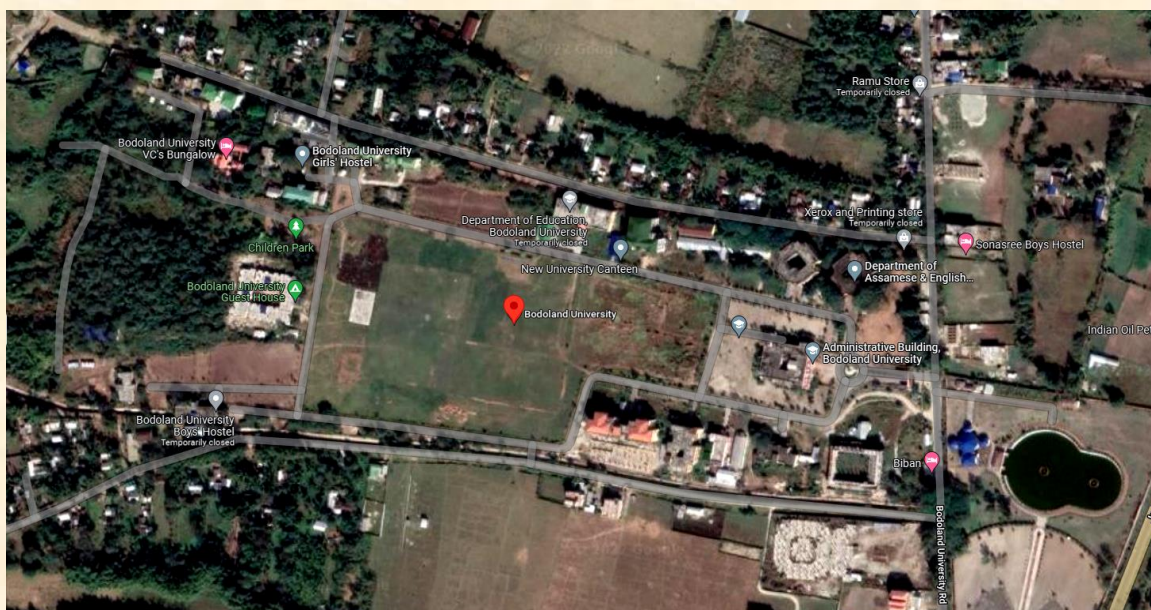

Bodoland University is a state university established under the Bodoland University Act, 2009 of the Assam Legislative Assembly on 28th February 2009. It is one of the growing universities in lower Assam and a lone institution of higher education in the western part of Assam to address the need and concern for all-round development of the region. Bodoland University is committed to the academic development of lower Assam in general and especially the BTAD region. The university provides an opportunity for higher studies to the populace of this region. It also caters to the educational needs of the adjoining states and neighbouring countries like Bhutan, Nepal, and Bangladesh.

There are 17 PG Departments and 48 Affiliated Degree Colleges, 4 DIETs and 3 B.Ed. Colleges. Bodoland University runs the Academic Curriculum following the Choice-Based Credit System of UGC. Along with core subjects, Bodoland University also provides Diploma in Bamboo Technology, Post Graduate Diploma in Human Rights & Education (PGDHRE), and several other certificate courses. The Padmashri Modaram Brahma Central Library provides knowledge and wisdom with multifaceted facilities. Besides, the University also has Health Centre, Technology Incubation Centre, Intellectual Property Right Cell, Bus service and Hostel Facilities for students and research scholars.

The picturesque campus of the University is located at Rangalikhata, Debargaon 8 km north of Kokrajhar town. The location of the University makes it possible for students and researchers across the border to get access to the University conveniently. The University is well-connected by a surface road network including National Highway 31, Broad-gauge Railway (Kokrajhar Railway Station), and Airways at Rupsi Airport (70 km). The international boundary of Bangladesh (110 km) and Bhutan (40 km) and the state boundary of West Bengal (45 km) are accessible by roadways. The University has two additional plots of land at Haldibari (3 km) and Subaijhar (1.5 km) for further extension.

VISION

Bodoland University aspires to be a leading public institution so that it can indoctrinate moral values, scientific temper, socio-cultural, economic and political leadership qualities into its students in order to meet the regional, national and global challenges.

MISSION

- To impart value-based education leading to holistic, sustainable development.
- To conduct need-based location-specific research and development of the highest quality with a wide range of interests.
- Keeping a clear focus on the advancement of technology, increasing the efficiency of existing technology, optimize the use of natural resources and preserving the environment.
- To ensure access of all sections of the society for higher education.
- To inculcate women empowerment potential through education.
- To protect, preserve and promote ethics and cultural heritage pertinent to the location in particular and country in general for the furtherance of national integrity.
- To provide up-to-date, relevant and need-based knowledge.
- To promote flexible and effective governance.
- To create linkage with concerned institutions of excellence in the country and abroad.
- To promote the talent of students who are expected to play leading roles in their chosen career, ensuring effective and sustainable social actions. The University should be a breeding ground for a new generation of human resources, which would be job creators, not job seekers.
- To promote democratic spirit in the mind of the young generation.

DEPARTMENT OF ENGLISH

The Department of English started functioning in 1998 with the establishment of the Kokrajhar Campus of Gauhati University for the academic upliftment of the people of lower Assam. In 2001, Gauhati University introduced a semester system replacing the traditional system of the syllabus, which had been continuing for a long time.

Apart from teaching and research on the English language and literature, English Department has been striving to give students and researchers interdisciplinary knowledge and outlook, keeping in view the global academic demand and pursuit. The Department engages students in interpreting literature in the light of theories prevalent in the leading universities of the world and promotes research activities. Since the Department is committed to the development of the region, besides making the students sensible in the field of literature and culture and making them fit for the job market or making them capable of picking up the right career after University education, it also gives them new insight to interpret their literature and culture which may occupy a significant position in World Literature. Hence, English Department, in its present perspective, analyses Indian studies from different angles of global thought and scholarship. MA (English) syllabus of Bodoland University is a well-designed, innovative and compact course that covers a vast area ranging from British literature, European Literature, American Literature, African Literature, and Indian Literature, to emerging humanities like Culture Studies, Media Studies, Gender Studies, Northeast Writings in English, Women's Writing, Translation Studies, Linguistics and Hypertext, etc. The PhD syllabus is also based on the pursuit and trend of global academic research leading to free articulation and thinking.

VISION

The Department moves forward with the conviction that the discipline is not just for the privileged section with a bureaucratic bent of mind; it instead extends its patronage to all the English-knowing people in a global atmosphere irrespective of caste, creed, and religion. In Bodoland University, it acts as an interpreter, promoter and transformer; all rolled in one.

MISSION

- i) To encourage unity in diversity at a time when the world is collapsing because of ideological conflict.
- ii) To create an atmosphere of inclusiveness, amity and fellow-feeling by promoting courses like Comparative Literature and Translation Studies.
- iii) To instill among the students the spirit of inquiry and pursuit of knowledge.
- iv) To enable students in the use of English language and literatures in Englishes.
- v) To promote an interdisciplinary approach while studying Literary texts. This would put the study of literature in the right perspective.

SCHOOL OF SCIENCE AND TECHNOLOGY

DEPARTMENT OF BIOTECHNOLOGY

The department was established in 2008. The department started to offer Ph.D. programme from the academic session of 2013-2014. The department is equipped with an instrumentation facility and basic laboratory amenities to cater to students' needs. Department of Biotechnology, Government of India, has selected this department to establish an Institute level Biotech Hub and Bioinformatics Infrastructure Facility for infrastructure and manpower development of this region. The Department of Science and Technology (DST), Government of India, has selected the department to sponsor for the next five years under the Fund for Improvement of S & T Infrastructure (FIST) Scheme. The department has a self-sustaining mushroom unit that performs Research and Development and sells the products as food. As a mandate, the department takes active care in regular career counselling for students through advanced career-oriented training, enabling them to secure placement to establish themselves. The department takes the initiative in translational research in health and agriculture, Industrial food and extension services apart from regular teaching, learning and research. Recently the department has been blessed with the DBT-Biotech Kisan Hub project to address the root problem and issues of the farmer.

VISION

We envision that the department will develop into a centre of excellence in the field of education and research in the region.

MISSION

- ❖ The department prioritizes the development of Human Resources through advanced teaching-learning and research approaches.
- ❖ The department aims to carry out translational research in various fields of Biotechnology.
- ❖ To promote skill and entrepreneurship development through meticulous Biotechnological tools.
- ❖ The department stimulates and facilitates collaboration among educators, entrepreneurs, industry, farmers, medical science biologists, clinical investigators and health care researchers.
- ❖ The department educates the next generation of biotechnologists through direct participation in cutting-edge research.

DEPARTMENT OF BOTANY

The Department of Botany was established in 2014 and offered M.Sc. degree in Botany. The Department also introduced a Ph.D. programme in 2017. Since its inception, the Department of Botany has remained at the forefront of teaching and research in Botany. The Department aims to provide quality-based higher education in plant sciences, catering to the needs of many in the region. The Department emphasizes promoting integrated understanding and utilization of plants in various conventional and frontier areas of Botany. The major thrust areas of the Department are floristic studies of the region, plant physiology, pharmacology, biodiversity conservation, forest ecology, algology, fungal diversity, lichenology, microbiology, cytogenetics, bioremediation and nanobiotechnology.

VISION

To provide student-centric higher education that fosters an environment of excellence by attracting and supporting outstanding students, faculty, and staff needed to sustain our vision.

MISSION

- ❖ To promote quality education, training and research in the field of botany
- ❖ To promote higher learning in advanced technologies of plant science
- ❖ To promote integrated understanding and application of plants in various conventional and frontline areas of Botany
- ❖ To promote the conservation of plant-based bio-resource of the valuable plant diversity of the region

PROGRAMMES OFFERED

1. M.Sc.
2. Ph.D.

DEPARTMENT OF CHEMISTRY

Department of Chemistry was established in 2014, and since then, it has been offering M.Sc. course. The Department started its Ph.D. programme in 2018. Some of the major research areas are Biodiesel, Catalysis, Natural Products, Synthesis of Inorganic Compounds, Materials Science and Polymer Chemistry. The Department has four laboratories (two for M.Sc. practical and two for research work) to carry out practical and research activities. The Department is well-equipped with all the essential laboratory facilities for PG practicals. It has instruments like precision electronic balance, heating oven, vacuum oven, rotary evaporator, magnetic stirring & heating plate with precision temperature controller, nitrogen gas circulation assembly and sophisticated instruments like UV-Vis and HPLC cum GPC. The Department had received eight (08) desktop computers from NTPC, Bongaigaon under CSR-CD NTPC to set up a computer lab for students. The fund received from a DST-SERB sponsored research project has also been used to develop the DST-SERB sponsored research lab infrastructure. Currently, some of our passed-out students have been pursuing their Ph.D. at different Institutions and Universities like IIT Kharagpur, IIT Kanpur, NEIST (Jorhat), NEHU (Shillong), IASST (Boragaon, Guwahati), Tezpur University, Gauhati University and Bodoland University.

VISION

The vision of the Department is to excel in providing quality Chemical education, innovative research and outstanding services to society

MISSION

- ❖ To provide a better understanding of the principles, theories and experiments in the core and allied areas of Chemistry to the students in acquiring advanced knowledge
- ❖ To develop as a centre of excellence for modern education in Chemical sciences with a state of the art research facilities
- ❖ To produce alumni of international standard with loyalty and professionalism

DEPARTMENT OF COMPUTER SCIENCE AND TECHNOLOGY

The Department of Computer Science and Technology started functioning in 2009 under the Kokrajhar Campus of Gauhati University. The Department became a full-fledged Department in 2011 under Bodoland University, established under the Bodoland University Act, 2009. Many students have completed their postgraduate studies in Computer Science & Information Technology, and many of them have been providing technical services to the various institutions and some of them are pursuing further researches.

VISION

The Department of Computer Science & Information Technology has the vision to provide the best knowledge in modern computer science and educate people technologically sound in information science.

MISSION

- ❖ Teaching in Computer Science & Information Technology
- ❖ Research in various fields of Computer Sciences
- ❖ Generation of skilled human resources in CS & IT
- ❖ Design and fabrication of instruments required for teaching and research
- ❖ To impart quality education in CS & IT at the M.Sc. level
- ❖ To nurture and spread the culture of modern & embedded instrumentation.

DEPARTMENT OF MATHEMATICAL SCIENCES

Department of Mathematical Sciences started functioning as a full-fledged Department in 2011 under the Bodoland University Act, 2009 passed in the Assam Legislative Assembly. The Department is a continuation of the Department of Mathematics, which started functioning in 2005 under the Kokrajhar Campus of Gauhati University. The Department carries out research in the areas of Relativity & Cosmology, General Topology, Fuzzy sets and Applications, Fuzzy Topology, Functional Analysis, Fixed Point Theory, Operator Theory, Graph Theory, Demography & Environment.

VISION

The vision of the Department is to provide trained human resources for undertaking research and teaching in Mathematics and allied branches of basic or applied sciences.

MISSION

- ❖ To enable the students of Mathematics to apply the knowledge in the practical field and professional life.
- ❖ To carry out research in the areas of Relativity & Cosmology, General Topology, Fuzzy sets and Applications, Fuzzy Topology, Functional Analysis, Fixed Point Theory, Operator Theory, Graph Theory, Demography & Environment.

DEPARTMENT OF GEOGRAPHY

Geography is a diverse discipline that bridges the arts and social and natural sciences, providing a comprehensive education that discusses pressing issues including environmental change, regional and global disparities and the transformation of global economy and culture. Geography studies the places and the relationships between people and their environments. Geographers explore both the physical properties of Earth's surface and the human societies spread across it. Students of this subject obtain a unified view of the rapidly-changing world and how society influences and are influenced by it.

The Bodoland University Geography focuses on the interrelationship between physical and human environment. The Department was established under the faculty of Environment Studies in August 2015 is committed to deliver its curriculum to continue education for the refurbishment of our physical and social environment. Thus, anybody wants a career that too takes him outside the walls of an office, or allows to solve global problems, should consider studying geography. The degrees in geography offer concentrations to prepare graduates for multiple career paths.

Vision

To be a globally known academic school for our original, cutting-edge research in a human and natural system that defines the evolving discipline to answer the fundamental questions of global importance through innovative, engaged and relevant teaching and research.

Mission

- To disseminate geographical knowledge through mentorship model to graduate masters, M.Phil and doctoral students to meet the challenges associated with the continuing evolution of geographic science and reach the highest international standards.
- To provide a learning environment that fosters knowledge, skills and experiences with vibrant and fulfilling educational experiences.

Courses offer

MA/M.Sc in Geography

In the Master degree course, students are introduced to a range of geographical topics along with Remote Sensing and GIS in the first two semesters that are followed up in more details in the final year. Students must complete 92 credits to earn a master degree in Geography. With full-time enrollment, students can become a post-graduate in two years.

Specialization

Geography offers two specializations – Geomorphology and Social Geography. Under Geomorphology geographers study landscapes, bodies of water, and geomorphic processes, as

well as human impact on geographic elements. Social Geography “...stressed both the humanistic nature of the geographical world... and the classificatory nature of... human geographical work”.

Fieldwork Opportunities

In teaching Geography, we emphasize the importance of fieldwork since we believe there is no substitute for teaching subjects first hand. Thus in 2nd-semester students takes part in a week-long field course within the country. In the final semester, students are to do independent research in the field and to submit a dissertation for evaluation.

PhD programme

The Department has opened up the opportunity of researching by introducing PhD in the year 2019. With the present faculty position, Geography of Bodoland University has an endeavour to study the multifaceted problem and issues related to environment and society faced by the region. Most of us do research that addresses the core concerns of environmental and social issues. We seek to understand inequalities within and across the country and the world and to understand how the study of the environment and social issues can help to eliminate constraints of resource development and social wellbeing for all protecting our ecosystems.

DEPARTMENT OF PHYSICS

The department of Physics was established in 2014 under the umbrella of the Faculty of Science and Technology to emerge as a centre for excellence in research and postgraduate teaching at the frontier areas of Physics. Presently, the department offers M.Sc. in Physics with dual specializations such as Nuclear Physics and Condensed Matter Physics. Since 2017 the department is also offering Ph.D. programme. The faculty members of the department are actively engaged in cutting edge research in diverse areas of Physics, such as the phenomenology of relativistic heavy-ion collision, QCD phase transition & quark-gluon plasma, magnetic materials, metal oxide semiconductors, thin films etc. The department has research collaboration with other institutions such as Eotvos Lorand University, Budapest, Hungary, Central Institute of Technology, Kokrajhar, IIT-Guwahati, Gauhati University, Geophysical Research Centre, Shillong.

VISION

To emerge as a centre for excellence in Research and Teaching at the frontier areas of Physics.

MISSION

- ❖ To provide student-centred teaching and learning environment
- ❖ To excel in quality research
- ❖ To produce skilled manpower
- ❖ To create infrastructure for research and development in both basic and applied Physics

PROGRAMMES OFFERED

1. M.Sc.
2. Ph.D.

DEPARTMENT OF ZOOLOGY

The Department of Zoology is a newly established Department under the umbrella of the School of Science & Technology, Bodoland University, Kokrajhar. Since its inception in 2014, it has been the foremost centre for higher education in all aspects of Animal Sciences in lower Assam. Being the only institute of higher education in the western part of Assam, Department of Zoology is committed to fulfil the needs and aspirations of this region. It will also provide immense opportunity to the student community of this region to explore the exciting world of biological sciences. The current syllabus in the Department is based on the UGC-Choice Based Credit System which includes various aspects of biological sciences such as Molecular Biology, Genes and Genomics, Animal Physiology, Biochemistry, Fish Biology, Molecular Immunology, Developmental Biology, Receptor Biology, Cytogenetics and Genetic Engineering, Reproductive Biology, Endocrinology, Entomology, Environmental Biology, Bioinformatics and Biological Tools and Techniques. Apart from teaching, Department of Zoology is also engaged in other co-curricular activities which increase the awareness and practical knowledge of students. Further, we shall be extremely happy to provide further information on any subject related to our Department.

VISION

To excel in imparting knowledge and wisdom in the field of Biology in general, and Zoology in particular through dedicated teaching, research and extension work and serve the society at its best.

MISSION

- ❖ To emphasize on understanding of Biodiversity of the region and to adopt measures for their conservation.
- ❖ To excel research and development through research and high-level education having local, regional, national and international importance.
- ❖ To involve the Department in community-based extensive work through outreach activities.

1. The Department organized three-day Department Cleanliness Drive and Gardening Programme from 29 February to 2 March 2020.
2. The Department of Zoology, Bodoland University, Kokrajhar, Assam with the supported of Department of Fisheries, BTC, Assam organized a 2 Day Workshop on 'Current Advances in Fish Biology and Aquaculture' on 7 and 8 March, 2020 in the department. Dr. Kh. Bronson and Mr. Bihung Basumatary were the convenors of the programme in which Prof. Dandadhar Sarma, Gauhati University was the resource person.

3. Research Scholars Association of Zoology Department (RSAZD) was formed on 21 January 2021 with Ms Manita Daimari as President and Mr. Sanraja Muchahary as Secretary. They have organized International Day of Forest 2021 as their first activity.
4. On 4 February 2021, Dr. Anukul Nath, Assistant Technical Officer, UNESCO Category II Centre. Wildlife Institute of India delivered lecture on 'Landscape Scale Assessment of Endangered Species with Special Emphasis on Terai Grassland' in the Department.
5. On 10 February 2021, a workshop was organized on 'Bodoland University Campus Bird Count in Connection with Great Backyard Bird Count', Where Prof. Hilloljyoti Singha, HoD. as a Resource Person explained the methodology for the forthcoming Campus Bird Count.
6. The Students of Zoology Department of Bodoland University took part in the Campus Bird Count (CBC) on 14th February 2021. This was for the first time; the Bodoland University has stepped in this map of CBC in its 7th edition this year. Within one hour they recorded 43 bird species among them there were six migratory species. The CBC is a part of the global Great Backyard Bird Count, which is coordinated by Bird Count India in India.
7. A cleanliness drive cum plantation programme was conducted on 13 March 2021 by the department of Zoology, Bodoland University in the University campus where all the teaching faculties and students took part actively.
8. An educational tour to the recently declared Raimona National Park was organized on 22nd March 2022 by Zoology Department. Twenty-six M.Sc. Zoology Sem III students, and three faculties viz. Prof. Hilloljyoti Singha, Dr. Kushal Choudhury and Dr. Bronson Kumar Khangembam. from the department participated in the tour.
9. The nature camp was co-organized by the Department of Zoology and Aaranyak in Ultapani Forest Range of Chirang Reserve Forest, BTR during 7th-9th April, 2022.
10. The Department of Zoology, Bodoland University in connection to Azadi Ka Amrit Mahotsav organized a day-long awareness programme in and around the Chakrashila Wildlife Sanctuary in Kokrajhar, Assam on 12th December 2021. The programme was guided by Dr. Kushal Choudhury and Dr. Kh. Bronson Kumar of the Department of Zoology. Students of M.Sc. Zoology (Semesters I & III) and Research Scholars of the Department actively participated in the programme.
11. The Department of Zoology, Bodoland University in collaboration with Assam State Biodiversity Board organized a daylong Workshop on 'Capacity Building and Awareness Workshop on Biological Diversity Act 2002' with regard to Access and Benefit Sharing (ABS) and People's Biodiversity Registers for students and research scholars' on 18 May 2022. Dr. Kushal Choudhury, Associate Professor of the Department was the Programme Coordinator. Dr. Oinam Sunanda Devi, Scientific Officer, Assam State Biodiversity Board and Dr. Mazedul Islam, Technical Officer, ASBB were the resource person.
12. A Campus recruitment drive was organized in the department in association with Ed-Tech Company (Apps and Devices Pvt. Ltd, Bangalore) for Faculties on 3rd June, 2022. Students from various departments including zoology departments participated in the drive.
13. The Department of Zoology in collaboration with the Research Scholar Association of Zoology Department (RSAZD) organized an invited lecture on 'Applications of Artificial Intelligence on Biological Sciences' by Dr. Mohendra Roy, Assistant Professor,

Department of Information and Communication Technology, Pandit Deendayal Energy University, Gandhinagar on 27 June 2022. The Academic Registrar, Bodoland University inaugurated the programme and the Dean, Science & Technology graced the occasion as Guest of Honour.

SCHOOL OF SOCIAL SCIENCES

DEPARTMENT OF ECONOMICS

Department of Economics was established in 1997 under the Kokrajhar Campus of Gauhati University, Guwahati. Since 2013, the Department has started following its PG syllabus under Bodoland University. At present, the intake capacity of the Department is 60 in PG with eight faculty members. The Department follows CBCS for four semesters with five papers of 100 marks (20 internal + 80 end semesters) each semester. In addition, there are two Open Elective papers of 50 marks each in the first and second semesters. There is a provision for a dissertation paper of 100 marks in the last semester where students can have research experience useful for future research work. A good number of department alumni have established themselves in reputed jobs in different fields, and many of them have also become successful entrepreneurs. The Department also started Ph.D. programme in 2013 with five supervisors.

VISION

The vision of the Department is to make available provision of intellectual exercise among the scholars in the field of research and disseminate the fruits of research in the adjoining areas for the optimum utilisation of unused resources and to bring overall economic upliftment to the society.

MISSION

To disseminate theoretical knowledge of Economics and enrich students with the knowledge of the Economy of India in general and BTR in particular.

DEPARTMENT OF HISTORY

The Department of History, Bodoland University was introduced in 2005. Since its inception, the Department has been attempting to provide sound knowledge in reconstructing the history of the downtrodden communities whose histories are less known or ignored. It attempts to produce qualitative students and scholars in history who will help the human civilization through their research works. One of the most important objectives of the Department is to preserve the oral tradition of the Bodo community and other tribal people of North East India; unless it is preserved, it may be swiped away.

VISION

The Department aims at helping students to understand the present existing social, political, religious and economic condition of the people; and ecological. The teaching of history helps students analyse the present based on the past and traces its course. The cause-and-effect relationship between the past and the present is reflected in history.

MISSION

To enlighten the students with the present-day problems both at the national and international level accurately and objectively.

PROGRAMMES OFFERED

1. M.A.

Students can increase their knowledge and advance their careers by earning a master's degree in the field of ancient and modern history. Students who pursue a master's degree in history will learn about historical knowledge of all the periods, particularly of India and north east India.

2. Ph.D.

The Ph.D. programme's main goal is to teach students how to organize research and write a successful doctoral thesis. Doctoral graduates will be conversant with the conceptual and methodological components of historical research and will be qualified as experts in their subjects. Applicants must have a good advanced PG or equivalent degree in history or cognate disciplines to be considered for admission to the Ph.D. programme. Every year, during the spring, admissions are held based on an entrance test, and notifications for admissions are posted on the university's website.

DEPARTMENT OF POLITICAL SCIENCE

The Department of Political Science at Bodoland University is a premier department established in 2005. It offers programmes like Ph.D, M.A. in Political Sciences, and a one-year Post Graduate Diploma in Human Rights. The department also runs a Centre for Peace and Conflict Studies. Field visits, internships, assignment presentations for classroom debate, video lectures, role-playing exercises, and experiential learning are part of the department's regular schedule. The department holds seminars, workshops, lecture series, and other events regularly to strengthen further the skill and growth of its students and academic members. In order to support its students in all aspects of life, the department also uses the mentor-mentee model. Bodoland University's Department of Political Science is a leading department founded in 2005. Ph.D, M.A. in Political Science, and a one-year Post Graduate Diploma in Human Rights are among the programmes available. The department features cutting-edge facilities, and its faculty members hold extensive teaching and research experience and high-quality publications to their credit.

Courses

Ph.D Program in Political Science

About the Course:

The Ph.D. program's main goal is to teach students how to organize, research, and write a successful doctoral thesis. Doctoral graduates will be conversant with the conceptual and methodological components of political research and qualified as experts in their subjects. Applicants must have a good advanced PG or equivalent degree in politics or cognate disciplines to be considered for admission to the Ph.D. program. Every year, during the summer, admissions are held based on an entrance test, and notifications for admissions are posted on the university's website.

M.A. in Political Science

About the Course:

Students can increase their knowledge and advance their careers by earning a master's degree in the evergreen field of political science. Students who pursue a master's degree in political science will learn about the workings of political structures, international politics, and their effects on the masses on a broader scale. The Master in Political Science program examines significant themes and debates in global politics from various angles. It examines the solutions to current global political challenges and dynamics from a critical, western, non-western, and marginalized perspective. The program aims to investigate current global politics through the thoughts, perspectives, and concepts of great political philosophers.

PG Diploma in Human Rights Programme

About the Course:

The one-year PGDHR program equips students with the knowledge and critical awareness of the human rights discourse and the roles and duties of major human rights organizations on a worldwide and domestic scale, focusing on their implications in India. Graduates will be well-

prepared for advocacy and lobbying positions and leadership positions in social impact organizations. Through this program, students gain knowledge of current policy and law in the field of human rights, as well as an appreciation of new jurisprudential tendencies. They also lay a theoretical foundation of human rights law, making practice and implementation more informed. This course would benefit journalists, advocates, rights activists, and anyone interested in the nexus of rights, rhetoric, and the law.

Bachelor of Education (B.Ed.) programme

The B.Ed. Programme under Bodoland University started since the academic session 2014-2015. The University provides B.Ed. Programme in four District Institutes of Educational Training (DIET) viz., DIET Morigaon, DIET Nalbari, DIET Barpeta-Howly and DIET Bongaigaon. The intake capacity of three DIETs is 50, while DIET Morigaon has 100 seat capacities. 20% of seats are reserved for deputation in these DIETs.

Besides, three B.Ed. Colleges affiliated to Bodoland University viz. Government College of Teachers' Education (GCTE), Kokrajhar, Reimalie Academy College (B.Ed.) and Gossaigaon B.Ed. College with intake capacity of 100 each. 50% of seats are reserved for deputation in GCTE, Kokrajhar, while 20% are reserved for deputation in the remaining two other Colleges. 80% of seats will be reserved for the students of affiliated colleges of Bodoland University.

A graduate or equivalent from any recognized University with at least a 50% mark in aggregate may apply for the programme. However, if a candidate does not have 50% marks in the UG course, the candidate must have 55% in the PG course. The reserved quota of SC / ST candidates is as per norms (5% of the total marks). Teachers with deputation by the Govt. of Assam have been given special emphasis with at least 20% seat reservation. The selection of the candidate is purely based on merit.

Master of Education (M.Ed.) programme

Government College of Teachers' Education (GCTE), affiliated with Bodoland University, has provided M.Ed. Programme since the academic session 2017-2018. The total intake capacity is 50, out of which 20% of seats are reserved for deputation. Among the rest 80% of seats, 80% of seats will be reserved for the students of affiliated colleges of Bodoland University. Any candidate with B.Ed. / B.T. with at least 55% marks in aggregate as per latest NCTE norms from Bodoland University or any other institutes recognised by Bodoland University or other universities may apply for this programme. Relaxation for the reserved quota of SC / ST candidates is as per norms (5% of the total marks). The selection of the candidate is purely based on merit.

CENTRE FOR BAMBOO STUDIES

Initiated in 2013-14 as Diploma in Bamboo Technology course under the aegis of the Department of Biotechnology, Bodoland University was sponsored by the Agriculture Department, Bodoland Territorial Council Secretariat, Bodofa Nwgwr, Kokrajhar and National Mission on Bamboo Applications, New Delhi. It was upgraded to the “Centre for Bamboo Studies” in 2017 with its independent identity.

Bamboo is an important natural, renewable livelihood resource in Bodoland Territorial Council, which grows in about one-third of natural forest as pure and mixed are cultivated on homestead & non-forest land. Bamboo production in the Bodoland Territorial Region is relatively low. There is a need to enhance it through scientific Cultivation of suitable species and improved management of bamboo-based non-forest or forests.

Since bamboo is the primary source of livelihood for rural people of this region, it is, therefore, the need of the hour to make the people aware of the proper use and scope of Bamboo in Bodoland. The course is very important for Bodoland Territorial Council because it provides them with in-depth knowledge of various aspects of bamboos.

VISION

The primary aim of the course is to motivate students for self-employment, as well as to carry out extensive research in various aspects of bamboo with particular emphasis on bamboo cultivation and germplasm conservation.

MISSION

- ❖ Provide a unique opportunity to the youngsters for a career in one of the green gold industrial processing sectors, viz. bamboo-based industry, responsible for processing bamboo and other renewable fibre materials to meet certain vital human needs in a most environment-friendly manner.
- ❖ It will facilitate evolving strategies for augmenting production, application of relevant technologies and adaptation to the global market.

CENTRE FOR BODO STUDIES

The “CENTRE FOR BODO STUDIES (CBS)” started functioning in 2014 based on the Memorandum of Settlement of Bodo Accord, 2003. Bodoland University designed the centre to facilitate scholars, thinkers and interested individuals in augmenting a new study approach on the Bodo Ethnic Group of North East India with reference to national and international viewpoints. The primary concept of the centre is to contribute to the enormity of Indian diversity in nation-building approaches. Bodoland University envisioned building Bodo language and culture and antiquity an entity of the great Indian culture. Now, the centre has become a part of the University with substantial autonomy to function and solitary identity as “Centre,” to run by this Regulation. The Centre for Bodo Studies supports three types of scholars to undertake their studies. Firstly, the research scholars who want to undertake their studies on the related premise of Language, Culture and Antiquity of the Bodos can be registered member scholars of the Centre. Secondly, the writers or thinkers who have no requisite degrees to carry out research work but having good studies and knowledge on the area can also register as member scholars. Thirdly, who are energized to study various aspects of the Bodos methodically or want to publish their research works in an organized way can also become member scholar of the Centre. The Centre would extend memberships with available sources and guidance to find the goal in these three categories of scholars and learners. The centre also organizes seminar, workshop, training on various knowledge and skill of Bodo group and share their research findings with the nation and abroad.

BACKGROUND

The Bodo Accord, signed between the Government of India, the Government of Assam and under the Bodo leaders, has recommended establishing a Centre / Institute for research, development and spreading of the Bodo language. It has been mentioned in the Sl. No. 1 of the Annexure-4 of the Bodo Accord, 2003.

The establishment of a Centre for Bodo Studies in the Kokrajhar Campus of Gauhati University is a long-cherished desire of the Bodo people, intellectuals, writers, artists, social activists, journalists, social workers and scholars of this region. The project has a special significance after the signing of the Bodo Accord, which brings these aboriginal people under the sixth schedule of the Indian Constitution for their protection and development and the Bodo Language under the Eight scheduled for upholding and promotion of the Bodo language, culture and arts.

In 2000, the Educational Consultant India Limited, a Govt. of India Enterprise, which was deputed by the MHRD, Govt. of India, to study the feasibility of an autonomous University at Kokrajhar had suggested setting up a Centre for Bodo Studies at University Campus, Kokrajhar with its up-gradation to a full-fledged University. The Bodo language, literature, Culture and folklore, despite their richness, remain unexposed due to the lack of the patronage of the government for their exploration. The Bodos have developed literature with eminent playwrights, novelists and short story writers among them. Nevertheless, the Bodo language and literature investigations or methodical research are yet to be done due to the lack of proper facilities and institutional support.

The Bodoland University, which conducts a Master Degree course and research works, cannot cover the entire aspects of the Bodos like history, socio-economy, culture, behaviour, language, religion etc. Many of these fields are still virgin and need to be exploited scientifically. So, there was enough potentiality for running a Centre for Bodo Studies at the university level to cater for the need of the scholars of different disciplines. The establishment of a Study Centre at Bodoland University is very fruitful as its catchment area cover entire North East India, West Bengal and neighbouring countries like Nepal, Bangladesh, Bhutan, who have had close contact with the Bodos since time immemorial and will give scope for studying inter-state culture, language and literature. The growth of Bodo language, literature and culture in tune with the development of mainstream India will help instil national feeling, moral responsibilities among the Bodos and promote fellow feeling in the region.

VISION

Centre for Bodo Studies (CBS) has envisioned reconstructing the endangered Bodo culture, language and antiquity, which was about to disappear amid the globalization process. The Bodo language and culture need to be developed suitably to cope with the other language and cultures of the country. India being a multi-cultural and multi-lingual nation, offers scope for self-development and self-identity to all small communities. The mission of the Centre shall be to carry out extensive study in organized ways for creating and enhancing the domain of fundamental knowledge with new tools and methods in a scientific way through the quality study, research, consultancy, learning & teaching, documentation, archiving and digitization, exchanging ideas of culture, language, racial identity and so forth. Centre for Bodo Studies (CBS) is an interdisciplinary concept in its realm with a quest for proper knowledge and dissemination. It intends to become a pioneering force in developing academic potential among its ethnic group in the region. It shall have facilities and provision for extension and exchange of knowledge and studies with other like-minded institutions of India and abroad.

MISSION

- ❖ To preserve documents, traditional sculpture, painting and statues etc.
- ❖ To organize lectures/workshops/training on the various aspects of language, culture and history of the Bodos.
- ❖ To drive for enlisting members scholars for the centre from writers, scholars and learners.
- ❖ To organize training and research on Bodo art and the development of practical skills.
- ❖ To carry out a comparative study on the Bodos and allied groups.

PROGRAMME OFFERED

1. Certificate Course in Bodo (One Semester)

The course of the Bodo language acquisition is entitled “Certificate Course in Bodo Language”. The course aims for those who cannot speak or write Bodo Language. This is a preliminary course that aims to acquire the skill of speaking to be used in various contexts of discourses, and aims to enhance the skill of writing the language in a simple and easy method. Also, it aims at developing competency in translation from other languages into Bodo & vice versa.

Centre for Women Studies (CWS), Bodoland University, was established in 2013. It supports the all-round development of women especially control over recourses. The main concern of CWS, BU is to build a centre of information and knowledge of women of Bodoland Territorial Area Development Council (BTAD), Assam, and North Eastern Region. Evolving a Gender Perspective in developing and regularly revising the Curriculum material, Research Studies, Field action, Documentation and Extension Activities, The CWS, BU seeks to address discrimination against women, interrogate existing discipline-wise concepts, tools and techniques that justify the denial of equity for women and work towards the upliftment of women from the straitjackets of Stereotyped categorization, marginalization and discrimination.

AIM AND OBJECTIVES

- (a) To actively coordinate courses on gender and women in different departments and promote assimilation and dissemination of knowledge on gender issues.
- (b) To provide a forum to debate issues on gender, diversity and equity and to work in coordination with women's organizations and voluntary groups to advocate for better gender balance.
- (c) To initiate Capacity Building Programmes and thus facilities participation of women in higher education management.
- (d) To impart gender sensitization and generate awareness on gender issues both through academic and extension programmes.

STRUCTURE:

At present, the Centre operates with a director and a coordinator. It has an Advisory Board, Standing Committee, and a Statutory Committee comprising members from different fields and academic disciplines.

Director: Dr. Mridula Devi, Ph.D. (Economics).

Coordinator: Dr. Zothanchhingi Khiantge, Ph.D. (English).

SOUTH AND SOUTH EAST ASIA STUDY CENTRE

The centre for "South and South East Asia Studies", Bodoland University, was set up in 2019 as per Government of Assam office order No.83 Dated 02/05/2018 and approved by Hon'ble Vice-Chancellor, Bodoland University dated 30/04/2019. The vision of the centre is to explore the areas where trade and commerce, political, cultural and finally people to people contact with South and South-East Asian Countries can be built up for the development of India in general and North East India in specific.

OFFICE STAFF

1. Prof. Manjit Das, Director
2. Dr. Jhanin Mushahary, Assistant Director
3. Dr. Konita Basumatary, Coordinator

ACTIVITIES

An International Seminar titled "Act East Policy of India and Engagement with ASEAN" was organised on 30th and 31st January 2020. Prof. Elias Hossain, Department of Economics, Rajshahi University, Rajshahi, Bangladesh; Prof. Abdul Wadud, Department of Economics, Rajshahi University, Rajshahi, Bangladesh; Dr. Rajnish Ratna, Associate Professor, Department of Business Studies, Royal University of Bhutan, Bhutan; Prof. U. K. De, Department of Economics, NEHU, Shillong; Prof. Deb Kumar Chakrabarty, Department of Economics, Dibrugarh University, Prof. Jyotiraj Pathak, Department of Political Science, Bodoland University, Kokrajhar participated as Resource persons.

With the alarming growth of the global population, the proportionate growth of food and nutrition is always a prime concern. The issue becomes even grimmer with the depletion of potent agricultural land and other resources. One more issue that started finding importance among discussion of different fora is solid waste management, including agricultural waste. Mushroom cultivation is found to be such as bolete, puffball, stinkhorn, and morel.

The act of consuming mushrooms (mycophagy) dates back to ancient times. Edible mushrooms can appear either below ground (hypogeous) or above ground (epigeous) & edibility may be defined by criteria that include the absence of poisonous effects on humans and desirable taste and aroma. A popular answer to all the above concerns stands as quality food requires less land and can be a tool to manage agricultural waste. Diversification in any farming system imparts sustainability. Mushrooms are one such component that not only imparts diversification but also help in addressing the problems of quality food, health, and environmental sustainability. Consumption of mushrooms on a daily basis boosts the health of the consumer.

The attributes are good for the heart (no cholesterol), low-calorie food (good for diabetic patients), prevents cancer (especially prostate and breast cancer by arresting the action of 5-alpha reductase and aromatase, these enzymes are responsible for the growth of cancerous tumor), anti-ageing property (the polysaccharide from Mushroom are potent scavengers of superoxide free radical), regulates the digestive system, strengthen immunity. Mushroom like *Trametes versicolor* synthesizes Polysaccharide-K (Kresin), which is a leading anti-cancer drug. Mushroom is the fruiting body of fungi visible outside and can be seen by the naked eye. Biologically, Mushroom describes various gilled fungi, with or without stems, and the term is used even more generally to describe both the fleshy fruiting bodies and leathery fruiting bodies. Morphology deviating from the standard usually has more specific names such as bolete, puffball, stinkhorn and morel.

GENESIS OF THE WORK

Mushroom, a low-cost health food nutraceutical in nature having massive agro-waste conversion ability, highest producer of protein per unit area & time, is highly suitable as a tool for developing rural entrepreneurship and sustainable development in the mountains. Further, Bodoland Territorial Area District (BTAD, 6th Schedule Area) and North Eastern States (Eastern Himalayan States) make mushroom cultivation highly suitable and feasible through a series of easily understandable entrepreneurship & skill development training for the purpose. Further, virtues like minimal resource requirement, meagre capital investment, less water requirement, less land requirement, wide availability of organic agro waste, and potential domestic and international market make mushroom cultivation venture a model tool for stand-up India & start-up India concept. Mycophagy is a common practice in tribal communities. Most of the people and rural youth of BTAD are from tribal & other communities and are mostly belong to economically backward families (BPL) who have started emerging as potential Indian youth despite having a recent hard past. Department of Biotechnology, Bodoland University has identified this vital issue. With the help of DBT-GoI and the local BTC Government since 2013, it started addressing the local, rural and women entrepreneurs,

farmers with alternative and double income through mushroom-based tools followed by their value addition and marketing. Initially, the venture was confined to BTAD districts of Kokrajhar, Chirang, Baksa, and Udalguri of Assam. Subsequently, it has spread to other districts of Assam and other states like Sikkim, Manipur, Nagaland, Arunachal Pradesh. Initially, the work was conducted under the DBT-Sponsored Institutional Biotech Hub. However, the work is subsequently carried out under DBT –sponsored ‘Technology Incubation Centre for entrepreneurship development through mushroom culture & farming’.

VISION

Socio-economic upliftment and empowerment of rural entrepreneurs in mushroom culture and farming, especially women entrepreneur

MISSION

- ❖ Bio conversion of agro solid waste through the mushroom
- ❖ Providing alternative income to rural entrepreneurs by eco-friendly green energy

HEALTH CENTRE

Health sector is a legitimate coupling embedded within the social anatomy of the world. It is gaining firm root day by day as the disease structural behaviour is outraging the social harmony of the society. With a vision of “GOOD HEALTH FOR ALL,” the Medical Department came into force in 2013 with two staff nurses and one pharmacist. Now, one medical officer (Ayu) and one ward boy are also included in the medical team, rendering continuous treatment and medical-related support to the borders of Bodoland University and staff members. At present, the Medical Department is running within the University premises.

PADMASHREE MODARAM BRAHMA CENTRAL LIBRARY

Padmashree Madaram Brahma Central Library (PMBCL) is the liveliest place on the campus providing a safe, comfortable and friendly environment that enables learning and advancement of knowledge and promotes discovery and scholarship. The mission of the library is to facilitate the creation of new knowledge through the acquisition, organization and dissemination of knowledge resources along with providing value-added services. The library was established in 2001 in a small room as a part of Gauhati University, Kokrajhar Campus. The library was upgraded in 2009 as a full-fledged University library and the up-gradation of Gauhati University, Kokrajhar campus into a full-fledged state University in the name and style of Bodoland University. Since then, the library of Bodoland University has been known as Bodoland University Central Library. The library was confined in a single room till 2013, and on 12th August 2013, Library was shifted to a multi-storeyed separate building. Despite financial hardship, the library has been trying its best to develop modern library services to provide sufficient knowledge resources to the University's academic community effectively. In 2015, the Central Library was named after a renowned bureaucrat, poet and dramatist, Padmashree Madaram Brahma. Since then, the Central Library of Bodoland University has been renamed as “Padmashree Madaram Brahma Central Library”.

KOHA has been installed as Integrated Library Management Software (ILMS) to manage and organise library systems. At present, the barcode-based circulation system, i.e. issue return of the books, is being practised. The library holds more than 24000 print books, more than 1600 E-Journals, JSTOR and other resources like M.Phil. & Ph.D. Dissertation, Project work reports etc.

The library has a Digital Library section having 17 dedicated Personal Computers fully with high-speed internet connectivity, enabling library users to access various subscribed resources and browse the world of the web in search of various resources. With the implementation of Web-OPAC, the holdings of the library can be viewed by anybody from anywhere in the world 24×7.

PMBCL BU has successfully implemented the Remote Access Platform called Remotex to enable library users to access subscribed E-Resources from the comfort of their places wherever they go at any time, i.e., 24×7. PMBCL has also successfully implemented its digital repository in the name and style of Bodoland University Digital Library using DSpace software. This library will play a vital role in building an institutional repository of various resources of the University like Old Question papers, Thesis & Dissertations, Annual Reports, policy documents, etc., in electronic format, which will be accessible by anybody at anytime from anywhere in the world.

A dedicated and independent dynamic website has been designed and launched to provide single stop access to all the above portals/platforms. The library is also involved in conducting various programmes like user awareness, workshops, seminars, conferences, book exhibitions, career awareness, etc., in contributing to the University's academic and general activities.

I. ESTABLISHING THE CENTRAL LIBRARY

The first step towards establishing the library was taken in 2009 with a single room in the old administrative building. The library worked without library staff member/s for about 4 years. The formal functioning of the library started in May 2013 with the joining of one library professional and one Library Assistant. In August 2013, the Central Library was shifted to its present location with about 9254 sq. ft floor space.

The library has implemented Library management System Software SOUL2.0 with a barcode-based circulation system. The issue/return of the books is now being converted into an automated system. The university's academic community is provided with necessary reference/information services based on their specific need. In addition, the library extends reference and internet services to the local academic and civil society members.

University is already connected with DeLnet, through which the academic community of the University can access online resources extended by these consortia. Internet facility is also provided in the library through the 1gbps NKN line. In addition to the online resources available through these consortia, University has also taken an initiative to procure/subscribed selective new resources in 2017. Users can selectively photocopy the required books/journals articles, etc., through an outsourced photocopy centre outside the Central Library.

II. LIBRARY INFRASTRUCTURE AND FACILITIES

The present floor area of the Central Library is about 9254 sq. ft. Within this space, we are providing the following facilities-

- a) **Reading room:** Presently, four computer terminals have been kept for the users and 100 setting capacity.
- b) **Periodical section:** Several academic journals, periodicals, and magazines are displayed for reading purposes and two magazine shelves are kept for that purpose.
- c) **Reference section:** The Reference collection of the Central Library is presently displayed in 19 book-shelves.
- d) **Internet facilities:** The library provides free internet facilities to users through 15 computers terminals connected with 1gbps leased line for accessing the e-resources. The entire building is presently Wi-Fi connected, and users are also allowed to access the internet facilities through their laptops.
- e) **Surveillance system:** Most of the passage areas are presently covered by CCTV to secure the library resources. Security personnel are deployed during the entire functioning hours of the library.
- f) **Library furniture and equipment:** Over the period, the library was able to procure several furniture and equipment to facilitate its users' community.

III. LIBRARY COLLECTION

a) **Item-wise collection details:** The present strength of the library collection is as follows

Sl. No.	Item details	Collection strength
1	Books	25690
2	Braille Books	323

3	Periodicals/Magazines	11
4	Newspaper	21

NATIONAL SERVICE SCHEME (NSS)

The NSS Cell of Bodoland University organized a four-day programme from 21st-24th June 2021 to observe the International Yoga Day in collaboration with the Art of Living Foundation. The International Day of Yoga is observed on 21st June 2021, since its inception in the United Nations General Assembly in 2015. With the theme of the event, which was, "BE WITH YOGA, BE AT HOME" a webinar was conducted to observe the International Day of Yoga where esteemed guests, faculties from different colleges, members of the NSS units were present along with the Vice-Chancellor and faculty members of the university. The webinar began with the welcome speech by Prof Sujit Deka at 9:30 am. Prof Deka is the

programme coordinator of the NSS Cell, Bodoland University, and the HoD of Geography. Prof. Deka warmly welcomed all the participants with his humble and kind words, followed by the inaugural speech by the honourable Vice-Chancellor of Bodoland University, Prof. Laishram Ladu Singh.

Prof Singh is an eminent personality in population statistics and a man with vast knowledge and experience. He shared his urge for the introduction of yoga in all educational institutions for its numerous benefits. After the inauguration of the programme, a yoga session was conducted, which was led by Mr. M. Rajaque Rahman. Mr Rahman is a senior faculty in the Art of Living Foundation. The Art of Living Foundation is an educational and humanitarian NGO that offers breathing techniques, meditation, and yoga programmes. Mr Rahman has been an editor with top publications such as The Economic Times, Bengaluru, India and The Business Today in Muscat, Oman. He has also been the media coordinator of the Art of Living from 2005-2008. Mr Rahman commits to spreading the essence and wisdom of yoga, meditation and Indian spirituality to all sections. Mr. Rajaque Rahman shared his immense knowledge on yoga and its benefits and the science of how yoga plays its role in protecting the COVID-19. In his yoga session, a great orator and a better yoga teacher, Mr Rahman, showed some basic and easy but extremely important yoga steps that one can practice while being seated. He patiently and kindly taught all the steps and explained the science behind it whilst stating their advantages. He gave special attention to the students and displayed the yoga steps that help release stress and fatigue with increased focus and concentration.

YOGA WITH M RAJAQUE RAHMAN

Scientific researches have proved that yoga reduces stress and tension and increase physical and mental health. With COVID-19 taking a toll on everyone's mental and physical health, this year, the International Yoga Day focuses on the wellbeing of society while it is still recovering from the impact of COVID-19. Mr Rahman after an hour of yoga session, spared some of his precious time and answered the questions patiently that were raised by the audience. All the participants in the webinar were greatly benefitted and they expressed their gratitude to him.

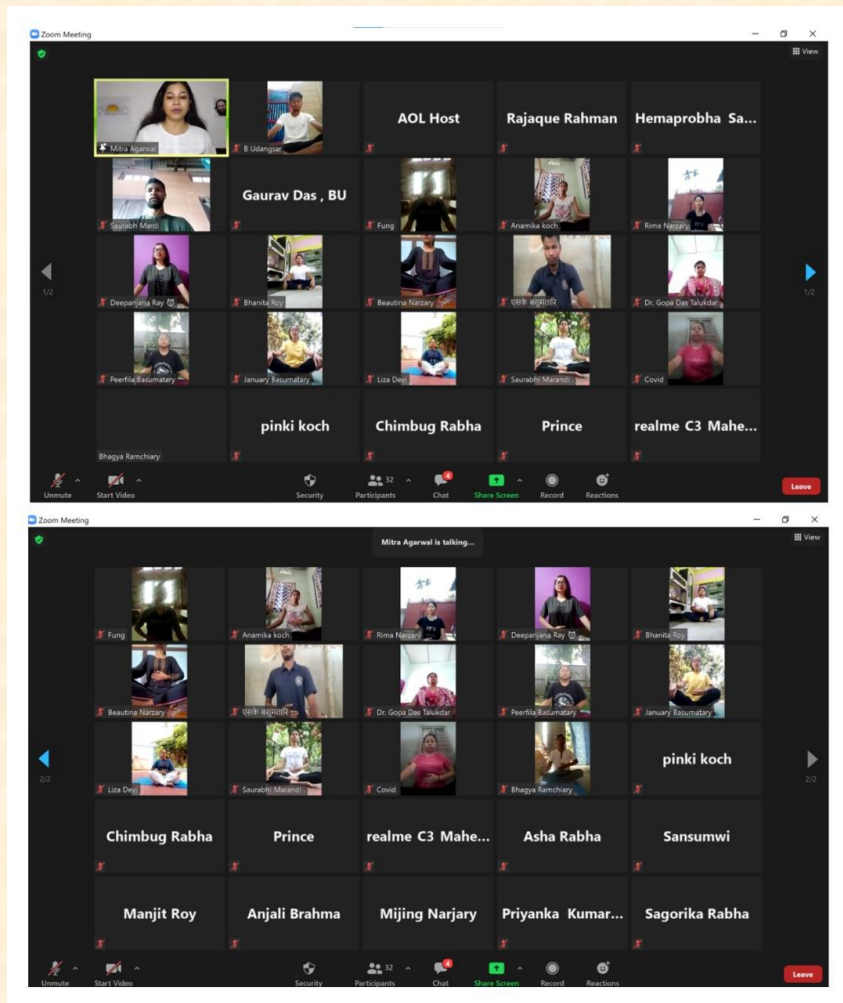

After the interactive session, it was followed by the vote of thanks which Mr Solomon Islary, Asstt, gave. Prof. of the Department of Political Science and the programme officer of the

NSS Cell, Bodoland University. He thanked all the dignitaries present in the event and the technical coordinator Dr. Manoj Deka and Mr Bhargab Jyoti Kachari. They were instrumental in the smooth conduction of the programme. Mr Islary also thanked the NSS programme coordinator and its members for taking this initiative to observe Yoga Day while being at home. Lastly, he conveyed his gratitude to all the participants present in the webinar for their support and cooperation.

For the next three days (22nd, 23rd and 24th June), a virtual yoga session led by Mr M. Rajaque Rahman was conducted every morning at 9:30 hours, attended by a large audience. The four days programme held by the NSS Cell, Bodoland University, has been a great success. In these desperate times where we are demanded to stay indoors, virtual events can prove to be very beneficial.

The World Environment Day, 2021
Ecosystem Restoration

Ecosystem restoration can happen by actively planting trees or eliminating pressure on the ecosystem by shielding the environment or reducing the escalating pollution level.

We have been exploiting our planet's ecosystem for long. The world loses enough forest cover and have destroyed half of our wetlands. Up to 90 per cent of coral reefs could be lost by 2050, even if global warming is limited to an increase of 1.5°C.

Ecosystem Restoration means preventing, halting and reversing this damage. World Environmental day will flag off the UN Decade of Ecosystem Restoration, a global mission to revive billions of hectares, from forest to farmlands, from top of the mountains to the depth of the sea.

Above all, World Environment Day offers a global platform for inspiring positive change.

HOSTEL MANAGEMENT COMMITTEE

The University provides hostel facilities for boys and girls. However, the seats are limited; therefore, looking into the matter, the hostel management committee strictly follows certain rules and regulations at the time of hostel seat allocation. The process of selection for accommodation will begin with the admission process. The selection for the hostel seats will be strictly on a merit basis. The decision of the committee will be final in the matter of hostel seat allocation.
